

# Now that the sequence selection is done

We can Align and quality-control our sequences

We can Infer a phylogenetic tree

## Explore Virus Data

### 📘 New! Randomized subsets in Downloads

You now have the option of downloading a smaller, randomized subset of the data shown in the Results table. Begin by using filters to refine your dataset, select the Nucleotide, Protein, or RefSeq Genome tab above the table for the datatype you would like to download, then follow the prompts in the Download menu. Our [Help documentation](#) has more information.
