# Access the NCBI Virus database

Find Data > How to Participate > Help v Submit Sequences > About Us ∨

### Quick Access to SARS-CoV-2 Data!

- · Novel Severe acute respiratory syndrome coronavirus 2 RefSeq genomes, nucleotide, and protein sequences.
- · View our new SARS-CoV-2 interactive dashboard.
- How to submit SARS-CoV-2 sequences.
- Visit our new SARS-CoV-2 <u>Variants Overview</u> New!

NCBI Virus is a community portal for viral sequence data from RefSeq, GenBank and other NCBI repositories. To find, retrieve and analyze data, please select an option below.

#### Search by sequence

Use the NCBI BLAST™ tool to find similar viral nucleotide and protein sequences.

#### Search by virus

Use virus name or taxid to find viral nucleotide and protein sequences.
